SNEEM DRAMSOC PRESENTS

THE GOVERNMENT INSPECTOR

By Nikolai Gogol

The action is set in a provincial Russian town some time in the 19th. century. It begins with a flash of lightning as the Mayor announces that a government inspector has arrived incognito. The Mayor hastens to conceal his misdeeds and his henchmen scurry to hide evidence of graft and illegality. Khlestakov, a penniless nonentity recently arrived from the capital, is mistaken for the government inspector with hilarious consequences. But the hour of retribution is very close to hand!

THE GOVERNMENT INSPECTOR transcends national boundaries to offer a richly entertaining satire on universal corruption.

The play is in five acts with an interval after Act 3.
